Marc Stuydill

Evelyn and Julie's ELEGANT bathroom

the project

This project was a collaboration with Julie Porretta of *Bellport Homes*, a home for sale which demanded that the design and finishes suit a wide range of potential homeowners. Emphasizing a high quality and luxurious master bath is very important when building an investment property.

our goal

The goal for this bathroom was to make it appear bright, timeless, elegant and sophisticated.

our result

Julie accomplished this by working with a classic grey and white marble, simple white cabinetry with a bright white Quartz counter top and a mirror with a mirrored frame. The freestanding tub is a classic element which has grown in popularity over the years. It takes up much more physical space in a bathroom, however provides a more open and roomy feeling overall. Selecting a crystal-like chandelier added a touch of glamour to the space.

THE LOOK: TWO-TONE TRANSITIONAL CLASSIC

THE DESIGNER *Glen Peloso*

CREATE A TRANSITIONAL KITCHEN by choosing a warm hardwood floor. Select a traditional raised panel door and drawer set. For the perimeter or the island, select a warm grey stain and use an off-white for the alternate area. Make sure that the exterior cabinets extend to the ceiling and then select simple knobs to complement the wood details. Select a *Calcatta* marble or super white granite for the counter top and backsplash. Finish the look by hanging two transitional fixtures over the bar area.

WHAT I LOVE ABOUT THIS LOOK is the combination of colours in conjunction with traditional elements and timeless details. I also love the additional storage space that comes with full height cabinets.

THE LOOK: SOPHISTICATED CASUAL

THE DESIGNER *Evelyn Eshun*

CREATE A SOPHISTICATED CASUAL KITCHEN with natural materials, simple white cabinets and detailed hardware for a classic look.

I ADORE THIS LOOK because it is timeless, comfortable and classic. You can never go wrong with a classic white kitchen. My favourite items are the natural wide plank floor and the marble counter top.

THE LOOK: PARISIAN STORYBOOK

THE DESIGNER Evelyn Eshun

THE INSPIRATION A Holiday season in Paris encompasses all that a "storybook Holiday tale" it is. Romantic, beautiful, timeless, classic, glamorous and more!

CREATE THIS LOOK AT HOME by mixing gold, silver and white elements. Add a dash of green spruce, fir and pine (natural of course). Layer your accessories by placing florals and accessories on mirrors. Add mini LED lights for added sparkle.

I LOVE THIS HOLIDAY

LOOK because it is timeless and traditional! It is also abundant, glamorous, dressy and perfectly formal. It is simple in its expression, but very complex in its detailed layers.

THE LOOK: GLITTERING GOLD

THE DESIGNER Heather Segreti

CREATE THIS LOOK AT HOME by using gold Holiday décor and eliminate all other colours from your palette. Keep the gold theme going by mixing in neutrals such as cream, silver, black, brown or white. For example: use a gold and cream ribbon on the tree, door wreath, fireplace mantle and centerpiece. Keeping a consistent flow throughout the house is a great way to complete this look!

I LOVE THIS HOLIDAY LOOK because it's neutral and rich. Gold and will work with all colour palettes. It is like wearing a gold watch - it really completes the look, and adds that touch of class and elegance to any wardrobe. Not to mention, it's always in style!

THE LOOK: FANCIFUL PEACOCK

THE DESIGNER Lisa Canning

THE INSPIRATION Inspired by Peacocks, this is a lush, vibrant approach to Holiday decorating.

CREATE THIS LOOK AT HOME by layering cobalt blue, emerald green and bronze in a variety of textures. Mix glitter with matte finishes, feathers with soft furs, and patterns with solids for a dynamic, playful and seasonal look.

I LOVE THIS HOLIDAY LOOK because it is fashion forward, fanciful and fun. I like introducing a bit of whimsy during the Holidays and peacock feathers and Mongolian sheep fur mixed together certainly keeps it fun.
