**Colin** "Most people who know me might not know that I am a total fount of knowledge of disco music. It's always been a fascination for me. Plus, I'm REALLY nerdy - give me Star Wars, Star Trek or The Big Bang Theory and I'm happy..."

**Justin** "I'd love to learn to properly use a potter's wheel. During the current season of Cabin Pressure, I gave it a go but it's VERY tricky. We re-enacted that infamous scene from Ghost and it got VERY messy!"

# *Evelyn's* DOUBLE TAKE

Design and Event Editor Evelyn Eshun shares her secrets on how you can create various looks using the same sofa. Her sofa of choice is a grey leather sofa with nickel studs.

Text Evelyn Eshun | Photography Stephani Buchman

*“Navy Blue and Gold were  
combined to create a luxurious  
and elegant look!”*

EVELYN ESHUN, DESIGNER

# Rustic

**THE LOOK** Sophisticated Rustic

**THE GOAL** To create a casual yet sophisticated space that mixes textures and shapes to create a comfortable family space.

**TABLE** with a wrought iron base shaped like an outdoor railing adds interest.

**LAYERING AN ANTIQUE WASHED PERSIAN RUG** over a textured seagrass rug combines a casual trend with a traditional look.

**TROPICAL LEAVES** create a simple, architectural element in place of a traditional floral arrangement. Best of all, they last at least four weeks!

**ELEGANT PILLOWS** with black burnout velvet and feather inserts bring a touch of luxury to the room.

# Casual Luxe

**THE LOOK** Casual Luxury Chic

**THE GOAL** To create a fresh yet glamorous look that will combine classic elements of a formal space with contemporary pieces.

**THIS CONTEMPORARY CANVAS ART** PIECE is playful and fresh!

**A BAR CART** is a useful piece of furniture for any space. It doubles as a table, a serving tray or display area. It is one of the most functional pieces you can have in a room.

**ANTIQUE MIRROR TABLES** with gold detailing are an elegant and classic addition.

**THE GRAPHIC CARPET** makes a style statement.

*I chose a good quality leather sofa from Zilli Home. This classic style sofa is a wise investment, allowing you to style it as you wish for years to come. The slim arms on the sofa also provide for maximum seating area.*

**BREAK THE RULES!** *When we needed another accessory on the coffee table, we used an extra Zilli Home mirror left over from the wall arrangement.*

**FLOWERS ARE THE UNIVERSAL SYMBOL** of spring. Adding tulips, hyacinths or daffodils is a wonderful way to bring a touch of spring indoors.

**WE LAYERED A PATTERNED RUG** from Zilli Home over a solid textured rug from Korhani. This will add interest to the conversation area.

### *The Location...*

**Huron Landing, 1662 Fischer Hallman Road, Kitchener, Ontario**

*The Emerald provided the perfect backdrop for our photo shoot. This 1,457 sq. ft. garden bungalow condo built by Eastforest Homes offers a carefree condominium lifestyle in peaceful surroundings featuring acres of protected forests interconnected by an abundance of trails and pathways. Starting at just \$299,990, The Emerald offers 2-3 bedrooms with 2 bathrooms and can be customized to suit.*
